

Anexo%3AAsesinatos Cometidos Por ETA Desde La Muerte De Francisco Franco

Gerhard Hirschfeld, Wolfgang J. Mommsen

The Spanish Civil War, 1936-1939 ,1975

Gulag Voices Anne Applebaum,2000-01-11 Collects the writings of a diverse group of people who survived imprisonment in the Gulag, recounting their experiences and relationships, and offering insight into the psychological aspects of life in the camps.

La prisión y las instituciones punitivas en la investigación histórica Pedro Oliver Olmo,Jesús Carlos Urda Lozano,2014-09-23 La Historia Social de las Instituciones Punitivas está necesitada en España de encuentro y debate, de confrontación y colaboración entre investigadores e investigadoras. Solo así logrará hacerse visible e inteligible como tendencia historiográfica y sobre todo como apuesta teórico-metodológica, porque de hecho ya es más que creíble como práctica historiográfica. Aquí, en este libro, junto a los logros también se perfilan las carencias y los retos más acuciantes. Lejos de buscar una autonomía extemporánea, la Historia Social de las Instituciones Punitivas quiere buscar su propia viabilidad a base de intersecciones y buenas mezclas. Esos objetivos se planteaba el Grupo de Estudio sobre la Historia de la Prisión y las Instituciones Punitivas (GEHPIP) —un equipo interuniversitario y con sede en la Universidad de Castilla-La Mancha (UCLM)— al organizar lo que de forma homónima decidió titular I Congreso Internacional sobre Historia de la Prisión y las Instituciones Punitivas, celebrado en Ciudad Real entre el 10 y el 12 de abril de 2013. El libro electrónico que aquí se presenta es una buena muestra de lo que allí se comunicó y discutió. Social History of Punitive Institutions in Spain needs meetings and discussions, comparison and collaboration between researchers. Only then it will become visible and intelligible as a historiographical trend and, above all, as a theoretical-methodological hope, because in fact, now it is more than conceivable as a historiographical practice. Here in this book are outlined, along with the achievements, the shortcomings and the most pressing challenges. Far from seeking an extemporaneous autonomy, Social History of Punitive Institutions wants to try to find its own feasibility based on intersections and good mixings. Those objectives were considered by the Study Group about History of Prison and Punitive Institutions (Grupo de Estudio sobre la Historia de la Prisión y las Instituciones Punitivas, GEHPIP) -an interuniversity team and with central office at Universidad de Castilla-La Mancha

(UCLM)- when organising what it decided to name in an homonymous way 1st International Congress on History of Prison and Punitive Institutions (I Congreso Internacional sobre Historia de la Prisión y las Instituciones Punitivas), held in Ciudad Real (Spain) from 10 to 12 April 2013. The electronic book here presented is a good example of what it was told and discussed there.

Franco's Justice Julius Ruiz, 2005 Publisher Description

Zapata and the Mexican Revolution John Womack, 2011-07-27 This essential volume recalls the activities of Emiliano Zapata (1879-1919), a leading figure in the Mexican Revolution; he formed and commanded an important revolutionary force during this conflict. Womack focuses attention on Zapata's activities and his home state of Morelos during the Revolution. Zapata quickly rose from his position as a peasant leader in a village seeking agrarian reform. Zapata's dedication to the cause of land rights made him a hero to the people. Womack describes the contributing factors and conditions preceding the Mexican Revolution, creating a narrative that examines political and agrarian transformations on local and national levels.

Film Noir Reader 3 Robert Porfirio, Alain Silver, James Ursini, 2002 (Limelight). Departing from the approach of its Film Noir Reader predecessors, this third volume in the series assembles a collection of interviews with film noir directors and a cinematographer, few of whom are alive today. Interviewees include Billy Wilder (Double Indemnity and Sunset Boulevard), Otto Preminger (Laura), Joseph Lewis (Gun Crazy and The Big Combo), Curtis Bernhardt (Possessed and A Stolen Life), Edward Dmytryk (Murder, My Sweet and Crossfire), and Fritz Lang (Scarlet Street and The Woman in the Window).

Alexander and the Faithless Lady David John Athole Ross, 1968

Studies in the Alexander Romance David John Athole Ross, 1985 The Alexander Romance, a fabulous pseudo-history of the life of Alexander the Great compiled in late Antiquity, was one of the most popular secular texts in Europe during the Middle Ages. Its subsequent influence on the development of French and German literature has been significant. Professor Ross was a leading authority on the history and transmission of the Latin and French versions of the Romance, and his work has done much to clarify the spread of the Alexander legend in medieval European literature. This volume brings together all of David Ross's papers on the Alexander Romance, dealing separately with the Latin versions and their French and German reworkings. These include the first publication of a number of original texts in Latin and in German. There is also a valuable section on the development of the accompanying picture-cycle to the Romance, which derives from late-antique sources.

The Spanish Civil War at Sea Michael Alpert, 2021-09-15 The Spanish Civil War of 1936-1939 underlined the importance of the sea as the supply route to both General Franco's insurgents and the Spanish Republic. There were attempted blockades by Franco as well as attacks by his Italian and German allies against legitimate neutral, largely British, merchant shipping bound for Spanish Republican ports and challenges to the Royal Navy, which was obliged to maintain a heavy presence in the area. The conflict provoked splits in British public opinion. Events at sea both created and reflected the

international tensions of the latter 1930s, when the policy of appeasement of Germany and Italy dissuaded Britain from taking action against those countries' activities in Spain, except to participate in a largely ineffective naval patrol to try to prevent the supply of war material to both sides. The book is based on original documentary sources in both Britain and Spain and is intended for the general reader as well as students and academics interested in the history of the 1930s, in naval matters and in the Spanish Civil War.

The Medieval Romance of Alexander Jean Wauquelin, 2012 The figure of Alexander the Great haunted the medieval imagination - as much as Arthur, as much as Charlemagne. His story was translated more often in medieval Europe than any work except the Gospels. Yet only small sections of the Alexander Romance have been translated into modern French, and Nigel Bryant's is the first translation into English. The Deeds and Conquests of Alexander the Great is Jehan Wauquelin's superb compendium, written for the Burgundian court in the mid-fifteenth century, which draws together all the key elements of the Alexandrian tradition. With great clarity and intelligence Wauquelin produced a redaction of all the major Alexander romances of the twelfth, thirteenth and fourteenth centuries - including the verse Roman d'Alexandre, The Vows of the Peacock and La Venjance Alixandre - to tell the whole story of Alexander's miraculous birth and childhood, his conquests of Persia and India, his battles with fabulous beasts and outlandish peoples, his journeys in the sky and under the sea, his poisoning at Babylon and the vengeance taken by his son. This is an accomplished and exciting work by a notable writer at the Burgundian court who perfectly understood the appeal of the great conqueror to ambitious dukes intent upon extending their dominions. Nigel Bryant has translated five major Arthurian romances from medieval French, including Perceforest in which Alexander features prominently. He has also translated the fourteenth-century chronicles of Jean le Bel.

Predatory States J. Patrice McSherry, 2012-07-10 This powerful study makes a compelling case about the key U.S. role in state terrorism in Latin America during the Cold War. Long hidden from public view, Operation Condor was a military network created in the 1970s to eliminate political opponents of Latin American regimes. Its key members were the anticommunist dictatorships of Chile, Argentina, Uruguay, Bolivia, Paraguay, and Brazil, later joined by Peru and Ecuador, with covert support from the U.S. government. Drawing on a wealth of testimonies, declassified files, and Latin American primary sources, J. Patrice McSherry examines Operation Condor from numerous vantage points: its secret structures, intelligence networks, covert operations against dissidents, political assassinations worldwide, commanders and operatives, links to the Pentagon and the CIA, and extension to Central America in the 1980s. The author convincingly shows how, using extralegal and terrorist methods, Operation Condor hunted down, seized, and executed political opponents across borders. McSherry argues that Condor functioned within, or parallel to, the structures of the larger inter-American military system led by the United States, and that declassified U.S. documents make clear that U.S. security officers saw Condor as a legitimate and useful 'counterterror' organization. Revealing new details of Condor operations and fresh evidence of links to the U.S.

security establishment, this controversial work offers an original analysis of the use of secret, parallel armies in Western counterinsurgency strategies. It will be a clarion call to all readers to consider the long-term consequences of clandestine operations in the name of 'democracy.'

Rebel Courts René Provost, 2021 Rebel Courts presents an argument that it is possible for non-state armed groups in situations of armed conflict to legally establish and operate a system of courts to administer justice. Neither the concept of the rule of law nor the general principle of state sovereignty stands in the way of framing an understanding of the rule of law adapted to the reality of rebel governance in the area of justice. Legal standards applicable to non-state armed groups in situations of international or non-international armed conflict, including international humanitarian law, international human rights law, and international criminal law, recognise their authority to regularly constitute or establish non-state courts. The lawful operation of such courts is of course subject to requirements of due process, corresponding to an array of guarantees that must be respected in all cases. Rebel courts that are regularly constituted and operate in a manner consistent with due process guarantees demand a certain degree of recognition by international institutions, by states not involved in the conflict, to some extent by the territorial state, and even by other non-state armed groups. These normative claims are grounded in a series of detailed case studies of the administration of justice by non-state armed groups in a diverse range of conflict situations, including the FARC (Colombia), Islamic State (Syria and Iraq), Taliban (Afghanistan), Tamil Tigers (Sri Lanka), PKK (Turkey), PYD (Syria), and KRG (Iraq).

The Collapse of the Spanish Republic, 1933-1936 Stanley G. Payne, 2006 This book focuses on the short but crucial period that led to the collapse of the Spanish Republic and set the stage for the ensuing civil war. Stanley G. Payne, an internationally known scholar of modern Spanish history, details the political shifts that occurred from 1933 to 1936 and examines the actions and inactions of key actors during these years. Using their own memoirs, speeches, and declarations, he challenges previous perceptions of various major players, including President Alcalá Zamora. The breakdown of political coalitions and the internal rifts between Spain's bourgeois and labor classes sparked many instances of violent dissent in the mid-1930s. The book addresses the election of 1933 and the destabilizing insurrection that followed, Alcalá Zamora's failed attempts to control the major parties, and the backlash that resulted. The alliances of the socialist left with communism and the right with fascism are also explored, as is the role of forces outside Spain in spurring the violence that eventually exploded into war.

Social Protest, Violence & Terror in Nineteenth- & Twentieth-Century Europe Gerhard Hirschfeld, Wolfgang J. Mommsen, 1982-11-25

Posthegemony Jon Beasley-Murray, 2010 A challenging new work of cultural and political theory rethinks the concept of hegemony.

Twentieth-century Mexico William Dirk Raat, William H. Beezley, 1986-01-01 The Mexican revolution began in 1910 with high hopes and a multitude of spokesmen clamoring for a better life for ordinary Mexicans. This anthology examines how the revolution brought change and often progress. Women, the landless, the poor, the country folk are among those receiving consideration in the twenty-seven readings, which range from political and economic to social and intellectual history. About half of the selections are previously unpublished. Combining the best new scholarship by modern historians; outstanding work by distinguished Mexicanists of the past; excerpts from Mexico's finest fiction, poetry, and commentary; reminiscence; cartoons and illustrations, *Twentieth-Century Mexico* brilliantly illuminates the Mexican experience from Porfirio Díaz to petrodollars. The concluding chapter ties together the strands of twentieth-century Mexican culture to help U.S. readers understand not only Mexico's present situation but also its relations with the Colossus of the North. Like its predecessor, *Mexico: From Independence to Revolution* (UNP, 1982), this book includes suggestions for further reading and an index.

Indigenous Peoples and Democracy in Latin America Donna Lee Van Cott, 1995

The Franco Regime, 1936-1975 Stanley G. Payne, 2011-09-27 The history of modern Spain is dominated by the figure of Francisco Franco, who presided over one of the longest authoritarian regimes of the twentieth century. Between 1936 and the end of the regime in 1975, Franco's Spain passed through several distinct phases of political, institutional, and economic development, moving from the original semi-fascist regime of 1936-45 to become the Catholic corporatist "organic democracy" under the monarchy from 1945 to 1957. Distinguished historian Stanley G. Payne offers deep insight into the career of this complex and formidable figure and the enormous changes that shaped Spanish history during his regime.

The Mexican Revolution Adolfo Gilly, 2006 The classic account of the Mexican revolution from the acclaimed author. First published in Spanish in 1971, *The Mexican Revolution* has been praised by Mexico's Nobel Prize-winning author Octavio Paz as a notable contribution to history and is widely recognized as a seminal account of the Mexican Revolution. Written during the author's time as a political prisoner in the famous penitentiary of Lecumberri in Mexico, it sold thousands of copies in its first edition, becoming widely accepted as the official textbook by history faculties in Mexico despite Gilly's continued incarceration. It has gone through more than thirty editions in Mexico and been translated into French and Greek. This is a comprehensively revised and updated edition of the original text with a foreword by Latin American history scholar Friedrich Katz and a new preface to the English edition by the author. A true people's history, *The Mexican Revolution* is a stirring, bottom-up account of an event whose reverberations are still felt throughout Latin America and the rest of the world. What you didn't know about the Mexican Revolution: - In December 1914 the peasant armies of Pancho Villa and Emiliano Zapata conquered Mexico City and established a peasant government there. - Mexico's 1917 constitution granted the right of peasants and peasant communities to own the land they tilled. - Mexico's 1917 constitution established an eight-hour workday, a minimum wage, the rights to establish unions and to collectively bargain, and a right to strike--rights not seen in

the United States until the 1930s and later.

The Lion Book of Fairy Tales Julia Stone, 2015-05-15 This collection of some of the best-loved tales in the world makes a perfect gift. It is a delight to read and will surely find its place among the treasured books of childhood.--Back cover.

This is likewise one of the factors by obtaining the soft documents of this **Anexo%3AAsesinatos Cometidos Por ETA Desde La Muerte De Francisco Franco** by online. You might not require more grow old to spend to go to the books launch as well as search for them.
